

Book Suggestion - Flowers

Wildflowers, Blooms & Blossoms,

by Diane L. Burns

Age: 5+ years

This fascinating series turns ordinary walks into adventures. The book helps children learn to identify a variety of different plant species.

Activity

Take a walk together in an area with plants (park, forest, garden etc.) and bring the book along. Match the plants you see around you to those in the book. How many were you able to find? Which of the flowers do you like the most?
